

# Zach Grzeskowiak

Technologist / AI Implementation Expert / Growth Strategist

Company: [fluxninelabs.com](https://fluxninelabs.com) Portfolio: [skovie.bio](https://skovie.bio) | Contact: [zach@fluxninelabs.com](mailto:zach@fluxninelabs.com)

## SUMMARY

---

Creative technologist and AI systems builder with 3+ years of hands-on experience implementing AI across marketing agencies, building custom tools, and driving team-wide adoption. Proven ability to identify solutions where AI creates real business value. Through AI powered workflows, custom AI tools or solutions, and training around it. Currently building multi agentic AI workflows while independently seeking a role leveraging AI implementation inside a forward-thinking company.

## EXPERIENCE

---

**AI Developer & Creative Technologist** · Flux Nine Labs, LLC · Apr 2025 – Present · St. Louis, MO

- Freelancing custom AI solutions for clients including automating tasks, API integrations, and custom tools to meet your needs.
- Full-stack development — designing, building, and iterating on systems that connect AI models, data pipelines, and user-facing interfaces.

**Director of AI** · 1905 New Media · Apr 2024 – Nov 2024 · St. Louis, MO

- Led AI adoption across the agency, designing and rolling out tailored solutions that measurably improved team efficiency across departments.
- Built a custom Looker Studio reporting dashboard for a major ISP client.
- Developed a content production pipeline for the digital marketing team, meaningfully reducing turnaround time for both long-form and short-form content.

**AI Specialist** · 1905 New Media · Jul 2023 – Apr 2024 · St. Louis, MO

- Designed, tested, and deployed AI workflows that streamlined operations across multiple teams.
- Developed custom AI solutions including RAG-based tools, frameworks, and custom GPT's
- Delivered weekly training sessions and public presentations, establishing credibility in AI adoption, AI safety and AI ethics across the industry and across the company.

**Digital Marketing Specialist** · 1905 New Media · Jan 2023 – Sep 2023 · St. Louis, MO

- Built and piloted AI processes for long-form content, web page rewrites, strategy outlines, and creative briefs — then expanded successful pilots across the company.
- Produced all photo and video assets for the content team, from short-form social clips to complex graphics, integrating generative AI throughout the creative process.

## SELECTED PROJECTS

---

[scout.fluxninelabs.com](https://scout.fluxninelabs.com) — Automated website audit and intelligence tool. Utilizes a crawl pipeline, scoring model, and report synthesis layer that compresses manual prospect research into a diagnostic report.

[wavereact.online](https://wavereact.online) — Artist discovery engine that fuses YouTube performance data with Spotify release signals to surface emerging artists before mainstream lift. Turns weekly research into a repeatable, automated decision workflow for programming and content teams. This tool was custom made for a music reaction channel on YouTube. The scope of work was live analytics, artist releases tailored to their audience.

## SKILLS

**AI & Automation:** Fluent with all Frontier AI models, Expert on Open Source LLMs and local environments/fine tuning, agentic framework construction and AI education

**Development:** JavaScript, HTML/CSS, Web Development, API Integrations, Data Pipelines, Looker Studio

**Creative:** All Generative AI current tools. I am also a seasoned Graphic Designer fluent in Photoshop and a seasoned Videographer fluent in Final Cut Pro.

**Marketing:** Email Marketing, Facebook & Google Ads, LinkedIn Advertising, SEO, Content Strategy
